

★★★ Please read the following messages before setup ★★★

Thank You for Your Purchase!

Have a Problem starting/running your computer?

Any questions regarding your Purchase?

Before contacting your retailer, please call or email:

Email: [cs@comsale.com](mailto:cs@comsale.com)

Phone: 1-855-666-5848 ext.3

8:30 AM - 5:00 PM EST (Mon – Fri)

A few reminders before you set up your computer:

- ✓ THE OPERATING SYSTEM (**WINDOWS 10**) IS PRE-INSTALLED IN YOUR COMPUTER ALREADY
- ✓ If you have a laptop, make sure that you follow these steps while connected to a power source

Steps to set up your computer:

1. Turn on the machine. Let it load until you see a window that has “Set Up Windows” on top
  - Select your preferences: **Country/region, preferred language, keyboard layout, and time zone.** Click “Next” when finished.
2. Type your “Windows 10 product key”. Once you finish entering the product key, click “Next”

WINDOWS 10 COA Removal:

Please use either your finger nail or a coin to gently scratch off the silver surface from your COA

WHERE IS THE COA LOCATED?

**LAPTOPS:** Check beneath the computer and underneath the battery  
**DESKTOPS:** Check all sides of the computer case

3. The next window will have the message “Here’s the legal stuff”. Click “Accept”
4. You will be given the message “Let’s get connected”. Choose your network choice and connect the computer to it. You also have the option to “Skip this step” and proceed with it later.
5. The next window should say “Get going fast”. Click “Use Express settings”. Your computer should restart.
6. You will then be asked to setup your **username** and **password**. Once finished, click “Next”
7. Wait until you are able to see your desktop. It will have a **Recycle Bin** on the top left corner. **Your computer is now ready for use.**
